**ADVANCING
HEALTHCARE
THROUGH EDUCATION,
SKILLING & RESEARCH**

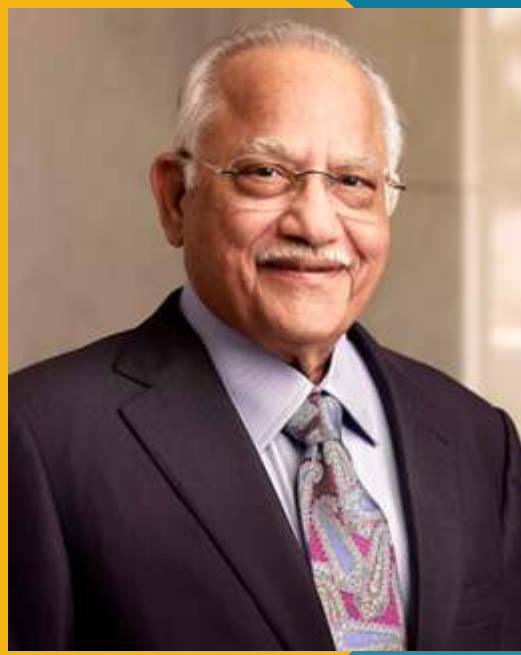

About AHERF

The Apollo Hospitals Educational and Research Foundation (AHERF) is a not-for-profit society, registered under the Andhra Pradesh (Telangana Areas) Public Societies Registration Act, 1350 Fasli (Act I of 1350 F.), established in Hyderabad on June 8, 1992. As the academic and research arm of the Apollo Hospitals Group, AHERF is committed to advancing healthcare through education, innovation, and outreach. (For statutory details, please refer to the Governance & Compliance section.) Recognized by the Department of Scientific and Industrial Research (DSIR) as a Scientific and Industrial Research Organization (SIRO), AHERF plays a pivotal role in driving advancements in medical education, clinical research, rural health initiatives, and healthcare workforce development.

AHERF operates across India with a mission that is both compassionate and forward-thinking. It empowers the next generation of healthcare professionals through world-class training, advanced simulation centers, and academic programs rooted in real-world impact. In addition, AHERF addresses critical gaps in underserved communities through rural health outreach programs, telemedicine, and strategic partnerships.

Guided by a Scientific Advisory Council comprising some of the nation's most respected scientists and medical experts, AHERF ensures that its initiatives are research-driven, ethically grounded, and socially relevant. It collaborates with global institutions to bring best practices and cutting-edge technology into the Indian healthcare landscape, always striving for solutions that are local in impact and global in vision.

Through its ongoing efforts, AHERF continues to reaffirm Apollo's belief that access to quality healthcare and education is a right—not a privilege—and remains committed to creating a stronger, healthier, and more equitable future for all.

Dr. Prathap C. Reddy, Founder-Chairman of Apollo Hospitals, is widely regarded as the architect of modern Indian healthcare. A visionary and humanitarian, Dr. Reddy transformed the healthcare landscape by founding Apollo Hospitals in 1983, introducing world-class medical care to India at a fraction of global costs. But his mission went beyond hospitals — it was about building a healthier nation.

With this enduring vision, Dr. Reddy established the **Apollo Hospitals Educational and Research Foundation (AHERF)** — a pioneering effort to strengthen India's healthcare ecosystem through education, research, and innovation. AHERF reflects his deep conviction that equitable healthcare begins with skilled professionals, robust systems, and a commitment to social good. It is this spirit of nation-building that continues to guide AHERF's efforts in shaping the healthcare leaders and solutions of tomorrow.

VISION

AHERF's vision is to be a world-class clinical and translational research entity encompassing personalised and precision medicine for the hospital and biotechnology community.

MISSION

- Undertake and promote translational and clinical research in major medical disciplines, focusing on translating research into practical applications.
- Develop a competent workforce through training and skill development programs.
- Provide clinical infrastructure and expertise for developing, establishing, and validating medical devices and assays.

OBJECTIVE

AHERF conducts scientific and medical research with a societal impact, addressing India's scientific and clinical needs. It leverages the expertise of its researchers and the Apollo network, including numerous skilled clinicians, a vast patient pool, and cutting-edge diagnostic and therapeutic technologies for ongoing research.

Total Impact

- + **2.17 million+** lives impacted
- + **1 million+** medical beneficiaries
- + Presence in tribal zones like **Amarabad**, serving PVTGs like the **Chenchu tribe**
- + Community-led and data-informed, **Total Health is AHERF's living laboratory** for whole-person care in rural India.

Launched by Dr. Prathap C. Reddy in 2013, Total Health is AHERF's flagship rural transformation program rooted in Aragonda.

Unlike isolated medical camps, Total Health integrates:

Preventive screenings

Nutrition

Maternal & child health

Lifestyle counselling

Education

Livelihood & sanitation

CSR THEMES & PARTNERSHIP OPPORTUNITIES

*We invite like-minded CSR partners
to join us across five high-impact verticals*

Area of Support	Description	CSR Clause
Cadaver Labs	INR 50L: Set up state-of-the-art Cadaver Labs for medical and allied health training	Education (ii)
Microscopic Slides (Anatomy Department)	INR 50L: Manufacture and supply high-quality microscopic slides for the Anatomy Department	Education (ii)
Student Awards	INR 10L: Annual gold medals and merit awards in donor's name across AHERF institutions	Education (ii)
Scholarships	INR 1 Cr. for 5 students	Education (ii)
Faculty Chair	INR 75L: Endow a chair for Nursing Education at Apollo College of Nursing	Education (ii)
Academic and Campus Infrastructure	INR 20 Cr: Support for comprehensive infrastructure development at The Apollo University, including classrooms, laboratories, libraries, simulation centers, hostels faculty accommodation, dining facilities, and common amenities.	Education (ii)
Cybersecurity & Skill Development Chair	INR 25L: Endow a named academic chair to promote cybersecurity skilling	Education (ii)
School of Management Chair	INR 25L: Support leadership and health management education	Education (ii)

Area of Support	Description	CSR Clause
Mobile Health Camps	INR 1 – 1.5 Cr: Fund 10 outreach camps in Andhra Pradesh	Healthcare (i)
Awareness Campaigns	INR 50L: Co brand national awareness drive (NCDs, hygiene)	Healthcare (i)
NICU Infrastructure	INR 1Cr: Upgrade NICU at rural partner hospital	Healthcare (i)

Area of Support	Description	CSR Clause
Women in Skilling	INR 50L: Train 100 rural women as healthcare assistants	Vocational Skills (ii)
Allied Health Skilling	INR 7.5 Cr: Sponsor Tuition fee 50 rural youth in medical lab tech & radiology	Vocational Skills (ii)
Simulation Based Training	INR 50L: Fund simulation labs for emergency care	Vocational Skills (ii)

Area of Support	Description	CSR Clause
Rural Outreach	INR 5 Cr: Expand Total Health to 5 new villages	Rural Development (x)
Nutrition Program	INR 10L: Fund mid-day meals for 200 malnourished children	Preventive Healthcare (I)
Sanitation Drives	INR 5L: Build 50 household toilets in tribal villages	Rural Development (x)
Village Adoption	INR 1 Cr: Adopt and develop a model health village	Rural Development (x)

Area of Support	Description	CSR Clause
Genomics Research	INR 50L: Chair for AI & genomics at CDHPM	R&D (ix)
Innovation Lab	INR 1Cr: Set up Digital Health & Innovation Lab	R&D (ix)
Integrated Research & Cybersecurity Lab (IRCL)	INR 80L: Equip and set up advanced lab for cybersecurity & digital health	R&D (ix)
Novel Drug Delivery Systems Lab	INR 60L: Fund high-precision equipment for pharmaceutical research	R&D (ix)
Pharmaceutical Technology Laboratory	INR 35L: Support tech infrastructure for advanced drug formulation training	R&D (ix)

Recognition Mechanisms

- **Naming rights for buildings, labs, or scholarships**
- **Gold medals for top students in donor name**
- **Endowed professorships**

Note:

- All initiatives are customizable and scalable based on your CSR commitment and focus area.
- Detailed proposals with impact metrics, locations, and sustainability plans are available upon request.
- Tax benefits and full compliance under Section 135 assured.

Join us in building India's healthcare future.
Email us at csr@aherf.info

Governance & Compliance

- + Registered under **Section 12A of the Income Tax Act**
- + Donations **eligible for 80G exemption**
- + Fully compliant with **Companies Act, 2013 – Schedule VII**
- + Quarterly reporting and **third-party audit readiness**
- + Branding, naming rights, and **employee engagement available**

Tax benefit

AHERF is eligible to receive CSR donations under Section 80G of the Income Tax Act.

Why Partner with AHERF

“In a land of abundant labor, there is acute shortage of skilled labor. There is an urgent need of more skilled health workers, more innovation, and more compassion—AHERF stands uniquely positioned to make a difference.”

Backed by the trusted legacy of the Apollo Hospitals Group, AHERF offers unmatched depth in healthcare education and outreach. We are committed to India's underserved communities, and we are building what the world needs most—a resilient, future-ready healthcare workforce.

What sets AHERF apart:

- Part of the Deep Apollo Healthcare Ecosystem
- Pan-India Presence with Global Standards
- Proven Track Record
- Strong Governance & Compliance
- Customizable & Scalable Partnerships

Partnering with AHERF is not just about giving back—it's about building forward. Together, we can drive measurable change in healthcare, one life, one community, and one generation at a time.
